

OUR VISION for LEARNING

At Salvado Catholic College, through a Christ-Centred approach, we are committed to developing an inclusive culture where every student is nurtured to become a resilient young person who will embrace learning with confidence and enjoyment.

Each student is supported to develop a sense of belonging and an understanding of their rights and responsibilities as a valued member of a connected College community.

We nurture the development of the whole person and provide supportive learning environments that promote student wellbeing.

We embed opportunities for active engagement and student agency to foster critical thinking, problem-solving and communication skills.

Our hope is that each Salvado Catholic College student will contribute positively to society as a lived expression of Gospel values.
